- Monitor recurrent AOG instances and devise proposals to minimise future AOG situation
- Ensure all MEL and AOG parts shipment are monitored closely until its arrival and notify contracted MRO/ warehouse personnel well in advance. Ensure parts are routed to the right location
- Maintain TRAX eMRO updated promptly with available information. Review the data captured and ensure discrepancies are resolved
- Ensure that correct documentation is provided by vendors/suppliers prior to the shipment to avoid any receiving discrepancies
- While sourcing for AOG parts, ensure to check available stock in terms of NHA/NLA to ensure items are not available prior to ordering parts
- Maintain an updated tracker of all parts on AOG/MEL with latest status

Other Supply Chain Duties

- Progress overdue repair orders and hasten components required on routine and priority basis
- Update TRAX eMRO with repair capabilities and test/repair/Overhaul workscope prices of newly added suppliers/ MROs for clear visibility
- Monitor daily unserviceable inventory and take appropriate action to expedite release of such parts
- For any CON/EXP having an investigation label, raise a case for further engineering review

RwandAir

Fly the dream of Africa

- Review parts removed as part of routine aircraft maintenance or modification for exchange return, or other returns and notify concerned team
- Review and approve scrap notes, order approvals in the workflow
- For all parts received, ensure certification is properly archived
- Daily followup of Repair Orders. Explore open market to support demands on advance exchanges/ loans
- Raise Repair Orders and Service Orders

b) Management & Leadership

- Train and develop other employees, to ensure succession planning is in place.
- To be committed and contribute to the National talent development, by coaching the national developpees, preparing them for a career with boundless potential. Leading to the program's continued growth and success.
- Train Rwandair staff in various duties as per business requirements

c) Personal Development

- Take responsibility for own ongoing personal development and growth of expertise.
- Keep abreast with any market trends and developments
- Assist in the response to any emergency or a major operational disruption affecting RwandAir or its subsidiaries.

d) Data Protection

- Ensure that in performance of the role, all uses, disclosures and requests of any information (in any form) are done in accordance with data protection principles adopted by the RwandAir Group and are limited to what is reasonably required to accomplish the intended business purposes of the use, disclosure or request.
- Comply with all relevant company policies and procedures regarding the use, processing, disclosure and security of any information (in any form) and ensure that all staff under my direct supervision are aware of and comply.
- Consult the Group's Data Protection Officer in matters related to data protection and privacy as appropriate.
- Ensure the confidentiality, security and protection of all information handled in the course of duties is maintained at all times from unauthorised access, use, disclosure, disruption, deletion/destruction, corruption, modification, inspection or recording.

e) Safety

- Responsible to ensure that employees at all levels understand work health and safety requirements and expectations through provision of relevant RwandAir Group induction, information, instruction, training and supervision.
- Ensure compliance to all relevant safety, security, quality and environmental management policies, procedures and controls across the operation to assure employee safety, security, legislative compliance and delivery of high quality service with a responsible environmental attitude.
- Ensure that all managers and supervisors understand work health and safety requirements and expectations to the extent that they can pass on relevant information, identify training needs and provide appropriate supervision in their workplace.
- Take a direct and personal interest in reported injuries, incidents, near misses and hazards to ensure that appropriate reporting, investigation and response is being achieved.
