- Administers examinations to staff, marks and updates staff training records
- During training, collects feedback from attendees to support improvements in the course content and delivery
- Ensures all delivered training meets all the regulatory standards (RCAA, EASA)
- Stays current with developments in the aviation technology, regulations and best practices.
- Supports in development, revision and update of all Technical Training manuals
- Manages and ensures class/training attendance levels meet the minimum guidelines for course completion and highlights any issues to the respective heads of sections
- Perform other duties as assigned by Technical Training Manager.

##### **b) Stakeholder Management**

- Liaise with heads of departments and HR Talent development .
- Coordinate with heads of sections within Technical for development of training materials

##### **c) Management & Leadership**

- Lead a team of Instructors
- Develop Technical Training team competence in line with fleet complexity and regulatory changes.
- Promote a safety-first, solutions-driven culture with high accountability and communication

**RwandAir**

*Fly the dream of Africa*

standards.

- Support training, mentoring, and professional development, especially for national staff.
- Establish KPIs and performance standards for Technical Stores responsiveness and delivery standards.

## **2. About You – Minimum Standard Qualifications & Experience;**

### **Essential**

Bachelor's Degree in Aeronautical Engineering or equivalent technical discipline. OR Licensed Aircraft Engineer (EASA Part 66 or ICAO Type II) with appropriate aircraft type endorsements and 8 years experience.

- Minimum 5 years of experience in Technical Training
- Strong understanding of regulations (eg Part 145, part CAMO, Part 66, Part 147)
- Strong understanding of Aircraft Maintenance processes, staff certification procedures and training organization requirements.
